BOXING.

Manager James Mason came down from Pittsburgh yesterday and posted his \$100 forfeit to guarantee Eddie Kennedy's weight and appearance, on October 12, as per the articles of the Kennedy-Waldron contest. The Metropol itan club also deposited a check for \$200 as a guarantee of good faith. The \$200 as a guarantee of good faith. The money was posted with John Wallace, of the Intelligencer, and now all remains is for Waldron's forfelt money, which is likely to be forwarded in a day or so by his manager, M. O'Malley, of East Liverpool. The articles call for twenty rounds, weigh in at 128 pounds at 8 p. m., the day of the contest. This will be a slashing bout and one of the best ever pulled off by the club.

Louden Campbell never stated a willingness to meet Sam Bolen, nor drew the color line because of being afridd of Bolen, remarked his manager, James Mason, yesterday. Campbell, he said, fought Jimmy Reeder, Harry Lyons and Harry Lemons, all colored, and never got much more than the price of a meal out of any of these matches, and it was on this account that Campbell decided to cut colored fighters in the decided to cut colored fighters in the future. However, added Mason, Campbell will box Bolen, if the latter will put up a side bet of \$100. Mason returned to Pittsburgh last night. In his stable are Eddie Kennedy, John Cavanaugh, Louden Campbel), Härry Johnston and in fact, everything from a paper weight to a giant. All are good men in their classes.

Jack McClelland is to meet Solly mith in Pittsburgh, next Monday

Oscar Gardner and Marty McCue ligh to-morrow night at the Broadway lub, New York.

BOWLING.

The finale of the Mozart's summer nament will be celebrated at Mozart park alleys to-night, and the invitation extended by the management to the bowlers and their friends will doubtless result in a large turnout of the tra-pin fraternity. The occasion is the distribution of the good things to the learne's prize winners. The alleys and beline will be free.

The Kenmore and Osceolas practiced last hight at the Fette alleys and to-night the All Allke and Rough Rider teams will hold forth. All the teams in the Wheeling Bowling League's winter formument are showing great interest in the coming struggle and the most successful tournament in the history of bowling in Wheeling is anticipated, Certainly no hetter "head pusher" than "Billy" Fette could be secured.

Covering of Bronze.

NEW YORK, Sept. 25.—The Columbia will go into the dry dock at the Erie basin on Thursday.

The Defender has gone to City Is-land. It is said she will go out of commission and be dismantled so far as her racing gear goes. She has served her turn as trial horse and will be laid

her turn as trial horse and will be indup.

It is the general belief that when the Columbia meets the Shamrock her white sides will have disappeared and she will present an entire surface of glistening bronze. Mr. Iselin was asked: "Will the Columbia enter the cupraces with unpainted sides?" He replied: "I propose to keep the matter to myself for the present."

Columbia has a total of fifty-three sails, great and small, almost enough for a facet of ordinary yachts, and a large amount of racing gear, such as rigging, battens, bowspriis, topmasts, spinnaker poles, cluba and yards for the club topsails and a spare gaff.

While the steel boom of Columbia has many advantages, and is superior to a wooden boom in every point, it has one disadvantage. It forms a steel attraction of such size that the compass on Columbia has never been reliable. The swinging of the boom back and forth over the compass has had the effect that such a mass of steel might naturally be expected to have. The man at the wheel can never tell whether or not the compass is right, and as Shamrock has a metal boom, it is reer or not the compass is right, and as Shamrock has a metal boom, it is re-garded as certain that the same trou-ble has been experienced on board the

ble has been experienced on board the challenger.

As the courses in the cup races must be sailed by compass, and as the deflections would prove serious in the event of a close race, one of the fastest sea-going tugs of New York harbor will be used for marking the course for the yachts This boat which can steam fourteen knots an hour, will sail the course by compass, either ahead or stern of the yachts, according to the course and the wind. When the yachts tack, the skippers will always be able to tell the line of the course by watching this tug, which will carry a signal to distinguish it from the other boats of the following fleet.

The indictment of Squire Henry Riddle by the federal court grand Jury adds another chapter to the clash between deputy marshals and the local authorities during the street car strike. It is charged sgains Squire Riddle that he didn't cease proceedings against Deputy Kester after being informed of Kester's office. Benwood people think that any error committed was done through misconception of the federal jurisdiction, and developments to occur when the court tries the cases of Squire Riddle and Officers Fisher and Gately will be awaited with considerable interest. ble interest.

Look out for your health means look in. For the secret of health is within you. Germs are in the sir you breathe and in the water you drink, but if your blood is pure and your stomach sound the germs can find no permanent lodgement.
To keep the blood and stomach in sound health or to re-establish them in a healthy condition when they are diseased, no medicine is so effective as Dr. Pierce's Golden Medical Discovery. It purifies the blood, cleauses the system of waste and poisonous substances, increases the activity of the blood-making glands, and invigorates the stomach and other organs of digestion and nutrition.
